THE CONGRESSIONAL CANVASS. Mr. Canaday and Mr. Shackelford, have continued their canvass until they have covered nearly all the Third District. There is much speculation as to the results on the part of both parties. All the news that reaches us is to the effect that Canaday has the best of it. Where there is so much smoke there must be fire, and where the news all runs in one direction the indication is unmistakable. The best indication we have from Carteret, Onslow, Duplin, Sampson, Moore, Harnett, Cumberland and Bladen, all points in the direction of the election of Canaday.

In proof of what we say we refer the reader to the correspondence which we publish from Sampson, Harnett and Moore. In addition to this we have f numerous private advices from all the counties. The tone of the information that we have does not seem to be violent and is void of the usual bitterness of a canvass, but as we all points one way.

While we give these yiews of the state of the canvass, let us not be understood that Canaday's friends ought to rest on their oars. Sixteen hundred Democratic majority is not a trifle to overcome in ordinary times. In any canvass vigilance should last till the last vote is in and the polls are closed At sunset on the 2d of November the event will be decided, the fiat of the people will have been uttered; not only in this District but all over this nation. Then we can rest. But until then tireless vigilance, unrelenting pertinacity, undeviating industry in getting ou every vote in each preginct, must be excreised. The interests of this importance District are too great to be intrusted to indifferent hands, but will be safe if the reople will send to the Capitol of the nation the energetic, the true, the bold, the inflexible, the fearless candidate of the Republican party-Hon.

William P. Canaday. A GREAT MEETING.

Gen. Grant accompanied by Senator Conkling, Gen. Logan, and welcomed by 40,000 people, made speeches at Warren, Ohio, on the 28th ult. They were the Republicans of Garfield's noble old District of the Western Reserve, which used to turn out its 30,000 majorities. Not only Conkling and Logan, but the venerable ex-Sen ator Cameron, Levi P. Morton of New York, and other distinguished gentlemen were of the party. The whole seene was gay with the uniformed clubs. music, barners, and the stars and stripes and the fair daughters of the Reserve. Among the mottoes were, "Tariff and Prosperity, or Free Trade and Poverty .- "Garfield the Poor Man's Friend," -"Whose Friend is Hancock?"-"Save Our Nation in Time." Stretched across the Wigwam was-"Our Principles :-This is a Nation; loyalty, protection, resumption, equal civil rights; a fair vote, honestly counted. We will fight it out on this line." General Grant read a prepared speech which was a model, and which we will print next week. Then Conkling delivered one of those addresses, such as he can de; liver, and Logan and others, and no such time was ever seen there before. Grant, Conkling and party, called on Garfield at Mentor and exchanged civilities and that the great champions of the reople each took their way.

THE PAN PRESBYTERIAN COUN

The Pan Presbyterian Council, consisting of delegates from the Presbyterian Associations in all parts of the world, and representing a sect amounting to about 40,000,000 people, assembled for its second session at Philadelphia on the 23d of September. Among those present were some of the most eminent Theological scholars of the Council of the kind, the first having been held in Edinburgh, Scotland, two vears ago.

This grave assemblage was called to order by the Rev. Dr. William Payton of New York, who preached a sermon from the text taken from Matthew. eighth chapter and eleventh verse: "And I say unto you that many shall come from the east and west, and shall sit down with Abraham, and Isaac and Jacob in the kingdom of heaven." It is impossible for us to attempt any abstract of the sermon. After the sermon the welcoming address was delivered by the Rev. Dr. Breed of Philadelphia. At the close of the sermon the speaker welcomed the foreigners as follows:

"One hundred and seventy-five years ago the first American Presbytery was organized in this city. To-day, of its 850,000 people, nearly 150 Presbyterian ministers, 120 Presbyterian congregations, with a communion roll reaching 42,000 and an adherence of some 100, 000, join in giving you a genuine Pres-byterian welcome. Welcome, one and byterian welcome. Welcome, one and all, to this city, where the first American Presbytery was born and cradled."

In the evening the Rev. R. D. Hitchcock of New York read a paper on "The Ceremonial, the Moral and the Emotional in Christian life."

In the morning, 24th, the two ad dresses by Prof. E. P. Humphrey, D. D., LLD., of Louisville, and Prof. were read on the "Inspiration, Authenticity and Interpretation of the Scriptures."

In the course of the evening Dr. Col: of Switserland, and the Rev. Dr. Philip burg of Edinburgh, Dr. Hutton of Schaff, of New York. It is reported at the Republican headquarters in Washington, by a letter from Senator Conkling that he be-

Judge Porter writes encouragingly from Indiana, The most reliable thing seen for some time is what John C. New, the Chairman of the Indiana State Committee, said, "I asked," wrote the correspondent, "for his estimate of the Greenback vote." "About 20,000," he replied, "If It doesn't go above that figure Porter will be elected." There is no smoke in John C. New's brain.

The Democrats are working vigorously in Ohio and Indiana.

The Greenbackers of New Hampshire have nominated Warren S. Brown for Governor, and a clean state ticket. with only 43 delegates, and those of South Carolina have nominated L. W. R. Blair of Camden.

Secretary Evarts made one of his best speeches to the Garfield and Arthur Club at Cooper Institute on the 29th ult. We will give clippings from this splendid oration next week. Near the outset of his speech he stated his subject to be:

The question before the country, the question before this vast representative assembly, is as to which of the two parties that divide the Nation, the conduct of its affairs for the ensuing four years may be safely, may be wisely, may be hopefully trusted by a people loving its honor, respecting its duty, and valuing the institutions which we have inherited from our noble ancestry.

General Grant at Warren, Ohio, gave the Democrats a rasping on this wise: Nation where a Democrat cannot cast his ballot and have it counted as cast No matter what the prominence of the opposite party, he can proclaim his political opinions without fear and without proscription on account of his opinions. There are fourteen states. and localities in some other states, where Republicans have not this privelege." That strikes the Democrats as "sectional." Of course. From the time of William H. English in Congress in 1860 down to the present, to state truths like those about the Democratic party has been "sectionalism." In fact, for twenty years there has been no real difference between sectionalism and patriotism.

Referring to Fitzhugh Lee's speech in which he declared, "If you desire that those neroes (Confederate) buried there shall not have died in vain, vote the Democratic ticket!" the New York Herald says: "Why should the Democrats persist in supplying the Republicans with texts.

The Boston Adiertiser notes the fact that it was not on the stock board, but among the permanent owners of the government four per cents, where the tremulous shiver struck the morning after the supposed Fusion victory in Maine. This slight tremor, which was got over by later news, shows what of Hancock's election. The stampede in stocks would produce a financial crisis worse than the black Friday.

As will be seen by one of our Wasl. ington correspondents in another column a new and somewhat peculiar society has sprung up called the "National Minute Men of America."

OLD SAMPSON LIVELY. SEPT. 27TH, 1880.

EDITOR POST :-The campaign in old Sampson has commenced more favorably for the Republicans than in several years past. The candidates for Congress have passed through and made speeches at three places in the county.

Mr. Canaday made a good impres sion, and will poll a large vote. Mr. Shackelford is much the inferior of Mr. Waddell as a speaker, if you might even call him a speaker at all, Mr. Kornegay was with them at Clintor and made a statement of the principles of his party. We expect to make very solid gains in old Sampson, and will elect an Independent ticket to the Legislature. You can put down Sampson as one county that aims at reducing the Democratic majority, and it is thought by many that the Republicans and In-

dependents will carry the rogaty,

Latest.

The shallow Hancockonians think they will be able to decieve the people by the game of brag. They are running the puffy, ostrich feathered Hancock who has no principles at all, except what are injected into him periodically by Jere Black or some other old seedy fellow of that kind. Hancock is a sort of swelled up, gassy Fallstaff, who is talking about his sixteen men in buckram. There never was such a farce as this Hancockonian, except the Greeley campaign. This will end in the same ridiculous way as that did.

The southern Bourbons are so enveloped in egetism and self-sufficiency that they have no real judgment about affairs. When they began the war they did it on the "onc-southerner-can-lickfifteen yankees" theory, from which their smoky brains were very speedily lieves the Republicans will carry New disabused, by such occurrences as Vicksburg and that "drawn-battle," as they term it, Gettysburg, and also Apcomattox. When they were conquered they had not serse enough to know that they were conquered, but imagined they had not committed treason and lest their rights thereby, and went around tlustering and wagging their heads in derision. Then they imagined they could fool the country by taking up Greeley, and now they have take up Hancock, on just the same mode of reasoning as the Republicans might take up Toombs or Wade Hampton. What would the sensible portion of the American people have said if the Republicans had declared for Wade Hampton at Chicago, and adopted his Lee-and-Stonewall-Jackson principles? There would have been quite as much sincerity in one as the other.

We are gratified to learn that Col. John T. Collins, the Collector of Customs at Brunswick. Georgia, who has been nominated for Congress in the Savannah District by the Republicans, is likely to be elected. The Republicans have a decided majority in that District, and are well organized, under the lead of such able men as Col. E. G. Wade, Col. F. T. Johnson and Col. James Atkins and others, and with a very acceptable candidate in Col. Collins, and a fair count, will without doubt be carried. We notice that Col. Collins is in Washington.

The Democrats around the National Committee's headquarters have been oragging for a while that they had s "Hancock Republican Club," consistng of 3000 members. A reporter for the Tribune, after hunting a long time, found the "Club" to consist of old Republican sore-heads and dead-beats and in number only 30. Barnum got. it up as an adjunct.

We hear that some sneaks have been posting indecent placards around on private houses, stores, shops and public buildings. If these dirty sneaks want to try any more of this mean business they will find that it is a game that two can play at.

The Treasury Department estimate the reduction of the debt for the month of September will be at least 12,000,000. The revenue of the fiscal year ending June 80th, has been accounted and closed, and shows \$333,526,611, or more than \$1,000,000 for every working day of the year. Such are the fruits of the policy of the present Republican administration and Secretary Sherman.

Our correspondent writing from Cerro Gordo is very hopeful of the amount due on his life policy. large Republican gains in old Columbus, and desires that people outside the county shall know that the Republicans there are wide-awake. He says they and other people besides, are tired of living under the rule of the old rings, and intend to surprise the Democrats on November second, God helping them, B. Williamson is Chairman and D. If the Republicans of the District but do their duty Furches' election is sure. es' election is sure.

COMPARING NOTES. The Star at last makes a feeble attempt to find something against Judge Buxton. The fact that there is really nothing upon which the Judge can be arraigned that amounts to enough to put out a humming-bird's eye, is made plain by the futility of the attempt to attack him. The Judge lives and walks about so clean, with a record so perfectly unblemished, with a case so normal in his favor, that all attempts to damage him have turned out to be the merest flatulency-voice and nothing else-mere wind. The most ridiculously fatuous thing which the Star adduces is what it says about the Judge writing to Gov. Holden that there was a state of lawlessness in Harnett county so great that he could not hold Court there. If the Star wents the state of things in Harnett at that time unearthed, it can be gratified to its content, as well as to its complete demoralization. And as to the diatribes of Bart, Fuller against him, the best evidence was that the Judge beat him out of sight in the very judicial district where Fuller, a Democrat undertook to run against him, a district where both men were known to the people. A man who has a record so absolutely clean and unblemished, both in public and private life, as Judge Buxton has had, is absolutely unassatiable among those who know him best.

While we are making these observations concerning the Republican gubernatorial ticket, we will add a wend as Lieut, Governor. "The Democratic papers realize the fact that great damage has been done to Gen. Hancock in his race for the Presidency by the put-up majority of 95,000. The cry of fraud has been raised by a cheated and wronged people, and is repeated throughout the land, exaggerated doubtless, and it is telling fearfully against him in the nertn, and blighting with fear chances that were bright up to the time the manipulators handled that iniquity that disgraces the legislation of the last session,-the new Election law. Had it not been used as it was it would have failed, perhaps, of its purposes. It bears on its face fraud, and, of course, as it is intended to defraud, it was so used. It was too much, however, and the 95,000 majority looks about as ugly now as the eight to seven Commissi did four years ago. Both these Demo cratic performances are understoo the great mass of the people, and they are not so much surprised at either as the press seems to be now at the 95,000 majority. They know who planned and executed them, and what for, and they will not fail to say if Hancock is defeated that the defeat came to through the same channel as the cheat did to Tilden. M 188 MEETING IN HOBESON. LUMBERTON, N. C., Sept. 25th, 1880.

EDITOR POST :-

In response to a call made by the Republican Executive Committee of this county for a general mass meeting of the Republicans of the county, this morning, at an early hour, the different roads leading to town from various directions, were literally packed with people; and as the day grew older the immense concourse, still increasing in number, continued rolling in. By 10 o'clock the streets were full to overflowing. All were expecting to hear that gifted son of North Carolina, Hon. Samuel W. Watts, whom the laboring masses of this great old stree delights to honor, and by whom their confidence and trust have never been betrayed. When it was found out that he had not arrived some felt somewhat disappointed, but when they were told that H. E. Scott, Esq., of your city, was in town, and would favor us with an address, everything was joyous.

The Lumberton Brass Band, Capt. Thomas E. Pope, leader, furnished us with the prostest music for the opensee and Edward K. Proctor.

Committee called the meeting to order. On motion, John Holloway was elect ed chairman pro tem, and Messrs John S. Lewis and Alva Lawson, were requested to act as Secretaries. On tak-

ing the chair, John Holloway, E-q, made one of his usual clear and pointed speeches, which was greatly applauded On motion of Hon. R. M. Norment it was moved and carried that this or-

ganization be permanent. At this stage of the meeting the chairman introduced H. E. Scott, Esq., of New Hanover, who spoke one hour and twenty minutes, and who made just such a speech as his reputation as tore the disguise from Democracy, showed it in all its barrenness and nakedness, fruitful for nothing but the hills of Maryland and old Virginia evil. has gained a decided victory over the Democrats in Harnett. The discussion between him and his political opponent, Mr. Shackelford, took place at Ready to Break From the solid Lillington on the 20th inst., at 12 o'clock m. Mr. Canadar opened solid and steady, and so continued throughout his speech. He stated that he was a Republican from principle; and went on to show that the Republican party has ever held forth the banner of liberty to the oppressed, and the arm of protection to the widow and the orphan.

It will be enough to say that he struck such a blow on the Democratic progressi rule, the Special Tax Bonds, and the sale of the W. N. C. Railroad, that Mr. Shackelford, being completely worn out, occupied the most of his time telling anecdotes. He continued in this are "ready way until many of his party began to nurmur among themselves, saying "He is not the man." During the while Mr. Canaday dealt only in facts which could not be denied. WASHINGTON, D. C.

SEPT. 23RD, 1880. EDITOR POST :-

The one hundred "Fusion Gan." which were prematurely fired to celebrate a supposed Democratic victory in Maine not only awoke an echo reply, but awoke in the hearts of the American people a spirit of determina tion, that the blow which is soon to be struck for the party of humanity, association, and a friendly rivalry is excel each other in grand results. A new Republican organization has suddenly sprung into notice, called the "National Minute Men." It is intersely national in its character, both as of some of its features causes it to be received with much favor; and it already has a large and important following, embracing in its membership citl. zens of every state. There is apparently a growing feeling in the minds of thinking Republicans that the north has been too hasty in its decision to concede, without opposition, a "solid south" to the Democracy; and a change of opinion, if not of action seems to

be in progress. It is certainly not unreasonable to believe that the same efforts that are being put forth in some of the northern states, if made in certain parts of the south, would be equally, if not more effective; North Carolina, for emple, is as naturally Republican, and could ed a ticket of unusual strength and Republican support. The Democrats in the meanwhile are seriously divided upon matters of great local importance, so that the prospects of Republican success in North Carolina were never more hopeful than now. Let the National Committee but give the state her share of national aid, and it may yet be claimed for North Carolina the honor of breaking down the terrible imaginary barrier to Republican seccess in this country, "a solid south."

The reports from all sections are most encouraging, and now with a "long-pull," a "strong-pull," and & "pull-altogether," the victory is ours. So say the well-informed. HILL

THE REPUBLICAN PLATFORM ADOPTED AT RALEIGH JULY

The Hon. R. C. Badger, chairman of the Committee on Platform and Resolutions, reported from that committee the following:

The Republicans of North Carolina, in Convention assembled, renew the pledges made in all their former platforms. And they declare as follows:

1. That they cordially approve the nominations, recently made at Chicago, of James A. Garfield for President, and Chester A. Arthur for Vice-President; and that they will most cheerfully and actively devote themselves to their election, as indispensable to the preserva-

read systems, by and under the control and ownership of foreign monopolists that such consolidation of capital gives power to the monopolists to oppress the labor of the country by unreasonable and unjust local tariffs and fares, and gives to them the power to control the legislative branch of goverr ment, in the pass ge of laws in their interest, and rainous to those of the people; and that they have seen with regret, that these monopolists are making an insidious invasion among the leaders of the Democratic party, which culminated on the 17th day of June, in the enguling and swallowing up of the whole Democratic swallowing up of the whole Democratic state convention; and that while they have no desire or intention to make an unjust war upon these menopolies, they do demand that the Legislature shall pass laws to govern and control them, so that they shall not be permitted to discriminate against our own people and place a reasonable limit on local tariffs and fares.

3. That they view with anxiety the goadition of the Western North Caroli na Railroad, which, through the hot haste and ill considered contracts of the Democratic state administration, is surrounded by legal troubles which afford no relief from taxation, and threaten to delaysfor a long time, if not altogether necessary for the welfare and develop-ment of the state, and especially the

western counties. 4. That the Republican party has always been the friend of education, and now again renews its pledge to the peoe of North Carolina to continue its efforts with increased vigor, until there shall be a complete and perfect system

of public instruction. That they recognize the mechanic and laborer as the bone and sivew of the land, and pledge themselves to proled their rights and promote their political, educational, and material inter-

6. That the recent constitutional amendments were passed by a conven-tion which was not composed of a majority of elected delegates, and the control of which was stolen from the Re publican majority, by an infamous and idmitted fraud on the voters of Robeson county. This corruption, on the part of the Democracy, demonstrates the fact that their party will scruple at no violation of law in the interest of party supremacy; and that the Democratic party is not the friend of representative government or of the people.

7. That the present system of county government in North Carolina is utterly subversive of the rights of the citizens; is the grossest political robbery ever practiced in this, or any civilized country; is the most damnable fraud ever devised or sanotiqued by any political party, and calls for the unqualified condemnation of all who have the name of freemen, without regard to party affilia; tion. We claim the right of the people to elect every officer in the state, from the Chief Executive down to the ham glest official, and demand that this right shall not be denied nor abridged; that an honest count shall follow a free ballot, and the majority shall determine who shall enact and administer its

8. They denounce the Democratic party as an oligarchy, controlled by railroad corporations and aristocratic influences, and mot arrested in its course, it will overthrow the most cherished rights of the people The tenrous powers, for private and corrupt ends, in the hands of a few, has re-cently manifested itself in a vittal part of our State government, and in a way to excite the greatest apprehension. The Superintendent of Public Instruction, now endorsed by his party nomination, and without regard to the pop-ular wish, has demanded to have vested in his hand, that is in the hands of a central board of which he should be the life, the absolute right of dictating what text books our children shall use, whereby he can mould the opinions of the rising generation; can strangle, for the benefit of personal or sectional tavorites, all competition in local literature, and open up for his office, so intimately connected with the popular life and purity, a faithful and Profitable source of corrupt jobbery. That they denounce the laws known as the landlord and tenant acts, as deas the landlord and tenant acts, as de-vised for the benefit of a few, to op-press the humble and defenceless citizen. That they denounce the pre-sent road laws of the state, as oppres-sive to the laborer, and demand their amendment, so that burdens of build-ing and repairing them shall be borne more equally by all classes of the peo-ple.
